Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

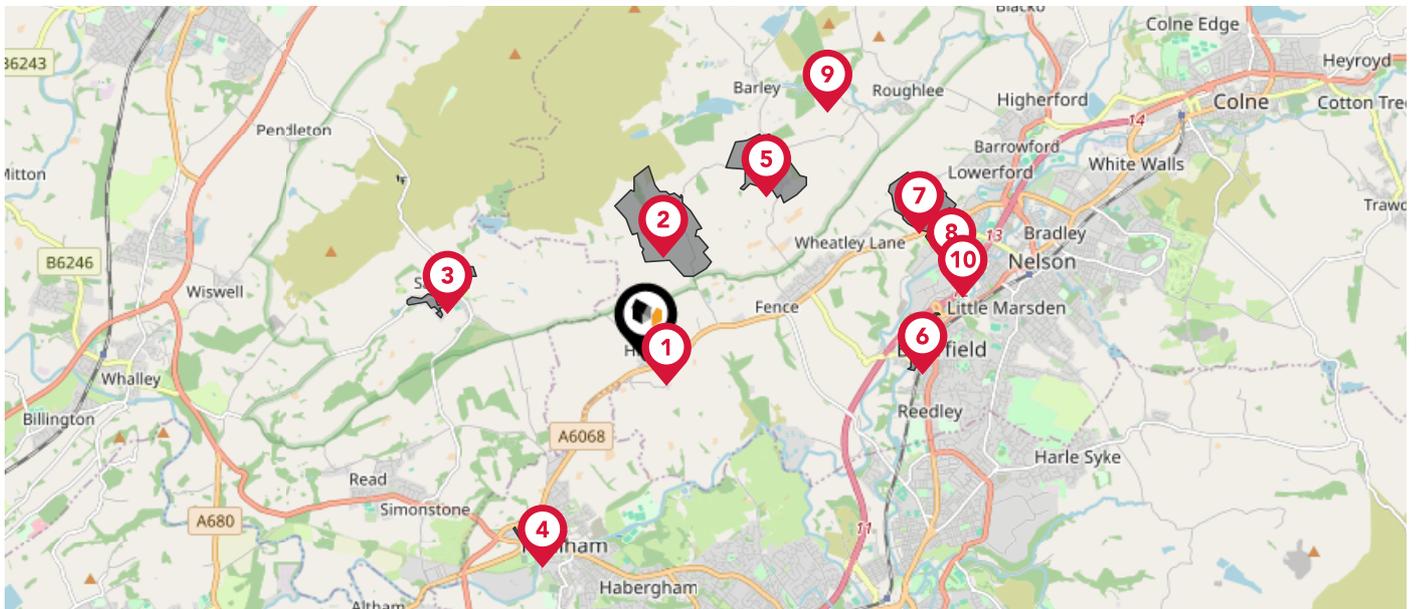

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

Testimonial 1

A super big Thank you to Andrew and all the team at Pendle Hill Properties for selling my house quickly. The service and communication from this company was second to none. Highly recommended. 5 star review from me.

Testimonial 2

Moved to Pendle Hill properties after a really poor experience with a previous agent and immediately saw a difference from the photographs and marketing, to the number of viewings. Andrew worked hard to get our sale to completion and was always contactable for any queries. Would recommend.

Testimonial 3

We used Pendle Properties to both sell our home, and rent our new home. It's a family-run company, and that really comes over in the service. You get that personal touch that is so often missing from high street estate agents. They care about their service. Our property in Cliviger was advertised and sold within 10 weeks, thanks to some great promotion across all platforms. They are strong and creative on social media. All in all, we'd highly recommend!

Testimonial 4

Hi, So Andrew and Thomas took on a very niche house. They were aligned with the way I wanted to house marketed right from the offset. Always available to contact even out of work hours. Due diligence on buyers made to a high level. A very personal approach to dealing with buyers and vendors. Succeeded in the sale of our house. Recommended their services. Thanks
