From main system

Lighting: Below average lighting efficiency

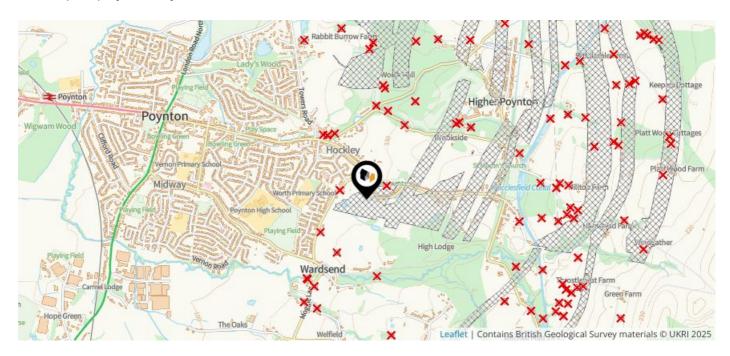

Floors: Suspended, no insulation (assumed)

**Total Floor Area:**  $78 \text{ m}^2$ 

# **Coal Mining**

This map displays nearby coal mine entrances and their classifications.

#### Mine Entry

- × Adit
- X Gutter Pit
- × Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

# **Conservation Areas**

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

Nearby Conservation Areas				
1	Lyme Park			
2	Macclesfield Canal			
3	Pott Shrigley			
4	Disley Conservation Area			
5	Disley Conservation Area			
6	Syddal Park			
7	Bramhall Lane South			
8	Higher Disley Conservation Area			
9	Bramall Park			
10	Brook Bottom			

# **Council Wards**

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

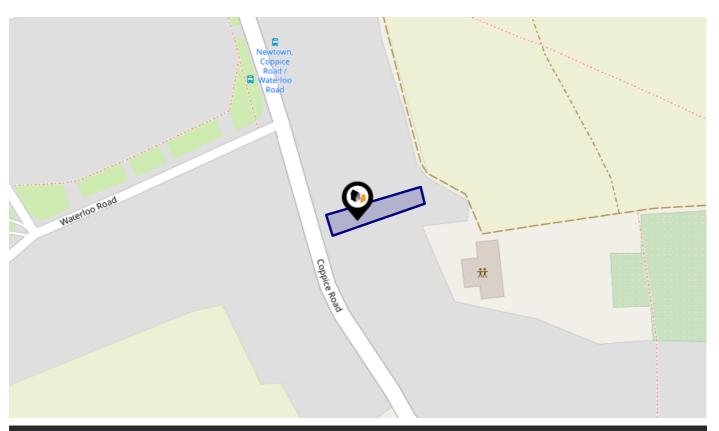

Nearby Council Wards		
1	Poynton West and Adlington Ward	
2	Poynton East and Pott Shrigley Ward	
3	Hazel Grove Ward	
4	Marple South and High Lane Ward	
5	Bramhall South and Woodford Ward	
6	Stepping Hill Ward	
7	Disley Ward	
8	Bramhall North Ward	
<b>9</b>	Offerton Ward	
10	Bollington Ward	

# **Rail Noise**

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

#### Rail Noise Data

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

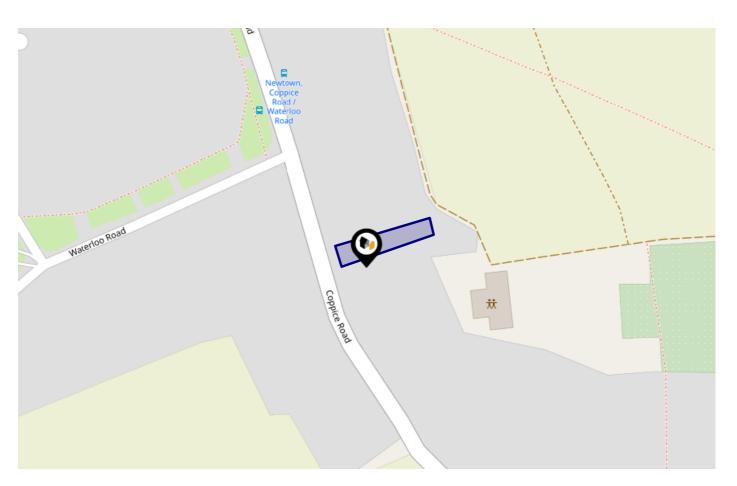

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5	75.0+ dB	
4	70.0-74.9 dB	
3	65.0-69.9 dB	
2	60.0-64.9 dB	
1	55.0-59.9 dB	

### **Rivers & Seas - Flood Risk**

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

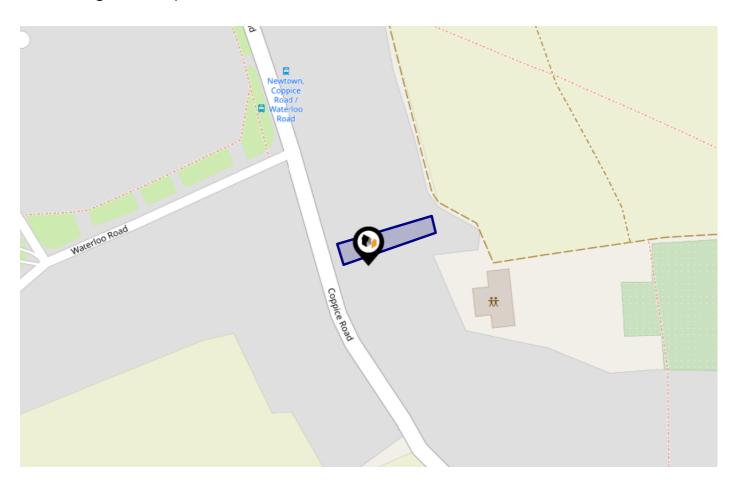

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk -** an area in which the risk is below 1 in 1000 (0.1%) in any one year.

### **Rivers & Seas - Climate Change**

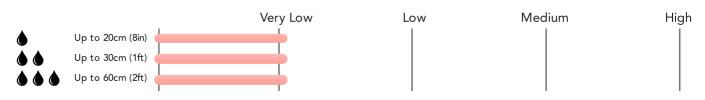

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

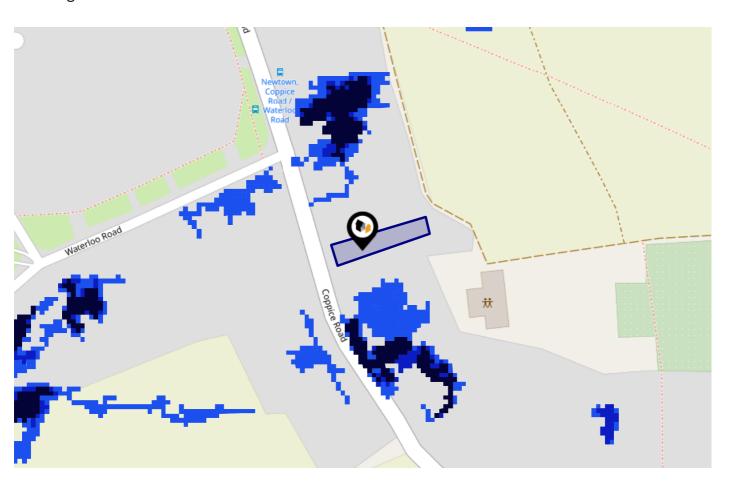

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk an area in which the risk is below 1 in 1000 (0.1%) in any one year.

#### **Surface Water - Flood Risk**

This map shows the chance of flooding where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

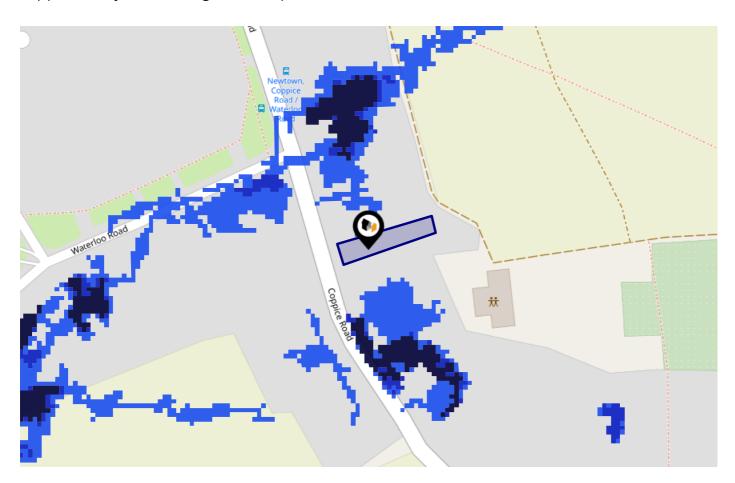

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk an area in which the risk is below 1 in 1000 (0.1%) in any one year.

# **Surface Water - Climate Change**

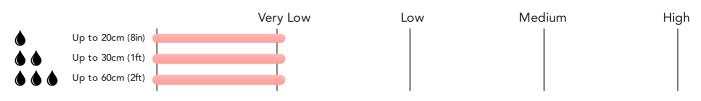

This map shows the future chance of flooding **between 2040 and 2060** where rainwater has nowhere to drain. This kind of flooding can occur far from rivers or seas. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

#### Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

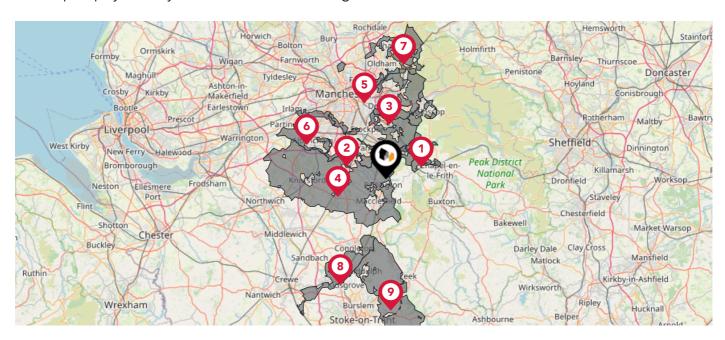

- **High Risk -** an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk -** an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk -** an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk an area in which the risk is below 1 in 1000 (0.1%) in any one year.

### **Green Belt**

This map displays nearby areas that have been designated as Green Belt...

Nearby Gree	n Belt Land

# **Masts & Pylons**

#### Key:

Communication Masts

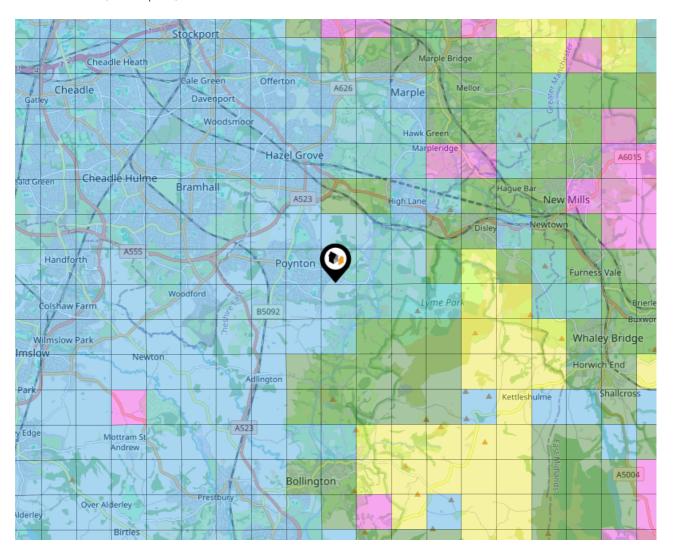

#### Environment

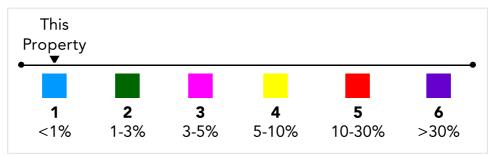

#### **Radon Gas**

#### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m3).

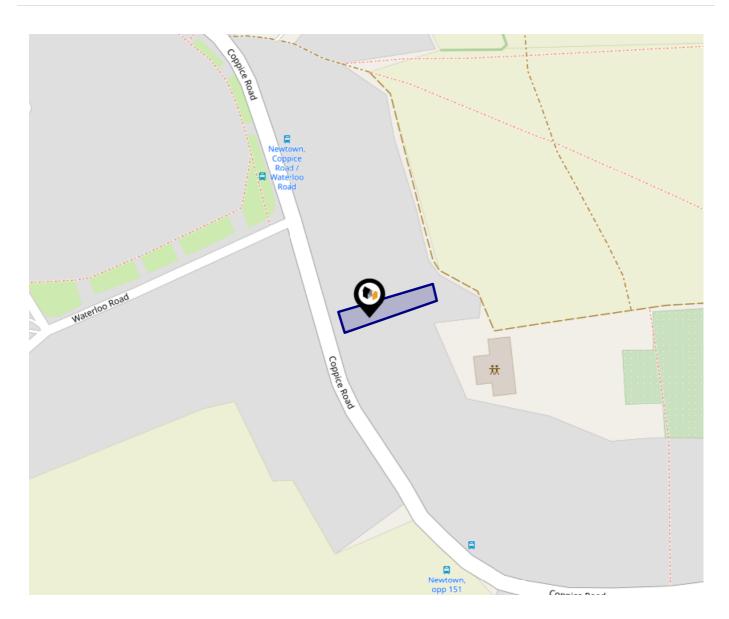

### Local Area

### **Road Noise**

This data indicates the level of noise according to the strategic noise mapping of road sources within areas with a population of at least 100,000 people (agglomerations) and along major traffic routes. This indicates a 24 hour annual average noise level with separate weightings for the evening and night periods.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

- 75.0+ dB
- 70.0-74.9 dB
- 65.0-69.9 dB
- 60.0-64.9 dB
- 55.0-59.9 dB

If you are

### Lawler & Co | Poynton

#### **Testimonials**

**Testimonial 1** 

We cannot thank Lawler's enough, in particular Claire. Our house move has been quite a journey but throughout the process Claire has been amazing. She has kept up communication, pushed on our behalf and always worked in our best interests. I would highly recommend them as without them I firmly believe we would not be in our dream home.

**Testimonial 2** 

We recently sold our home through Lawler and Co. and were very happy with the service provided. Nothing was too much trouble for them. We mainly dealt with Angela and Clare who were both friendly, helpful and extremely knowledgeable of the market. As a company we found them to be extremely professional, for example always keeping us updated of where the sale was up to and ensuring everything ran as smooth as possible. I would not hesitate in recommending..

**Testimonial 3** 

When our mother moved into a care home from a house that she had lived in for 67 years, my sister and I approached the task of selling the house with a high degree of trepidation. To complicate matters, neither of us lived locally, with each of us having a journey of approximately 3 hours to reach the house. However, from the moment that we contacted the Lawler and Co Poynton office we were greatly impressed and our fears receded...

**Testimonial 4** 

From start to finish excellent service. I bought my first house from them a couple of years ago and they were my first call when I decided to sell and relocate this year. Both my original purchase, my current sale and purchase were handled with professionalism and caring. All of my interactions with Lawlers and specifically Clare have been perfect...
