# Maps Coal Mining

This map displays nearby coal mine entrances and their classifications.

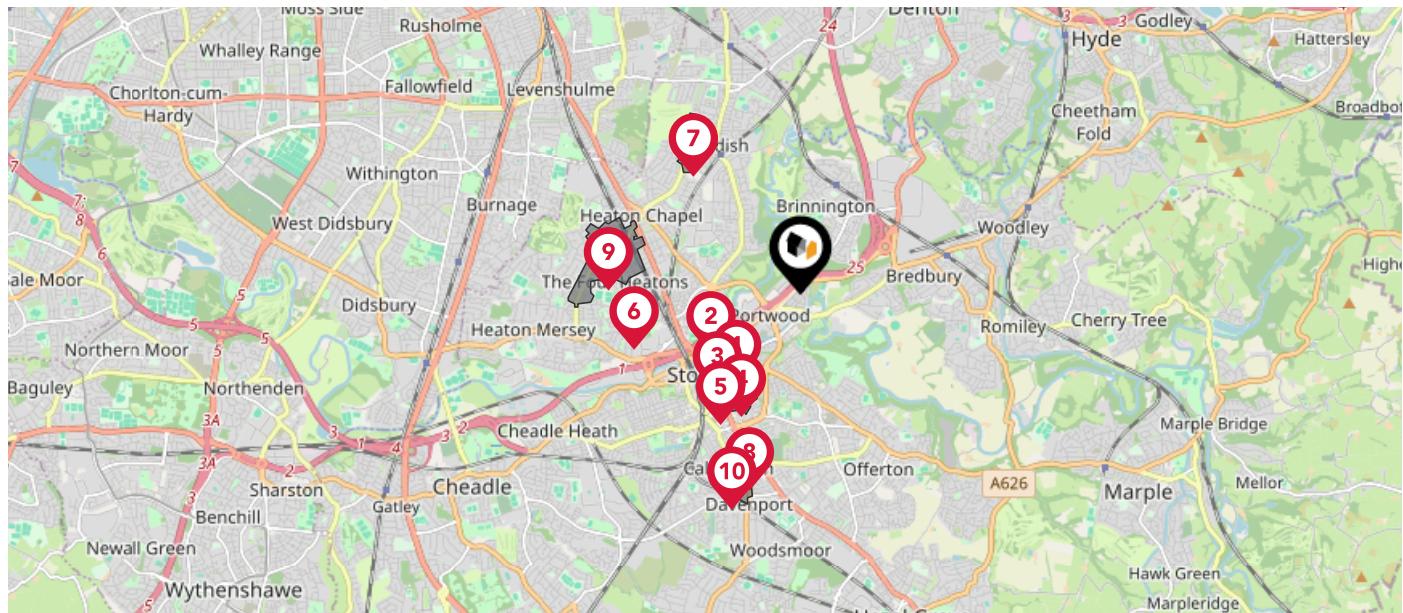

## Mine Entry

- ✖ Adit
- ✖ Gutter Pit
- ✖ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

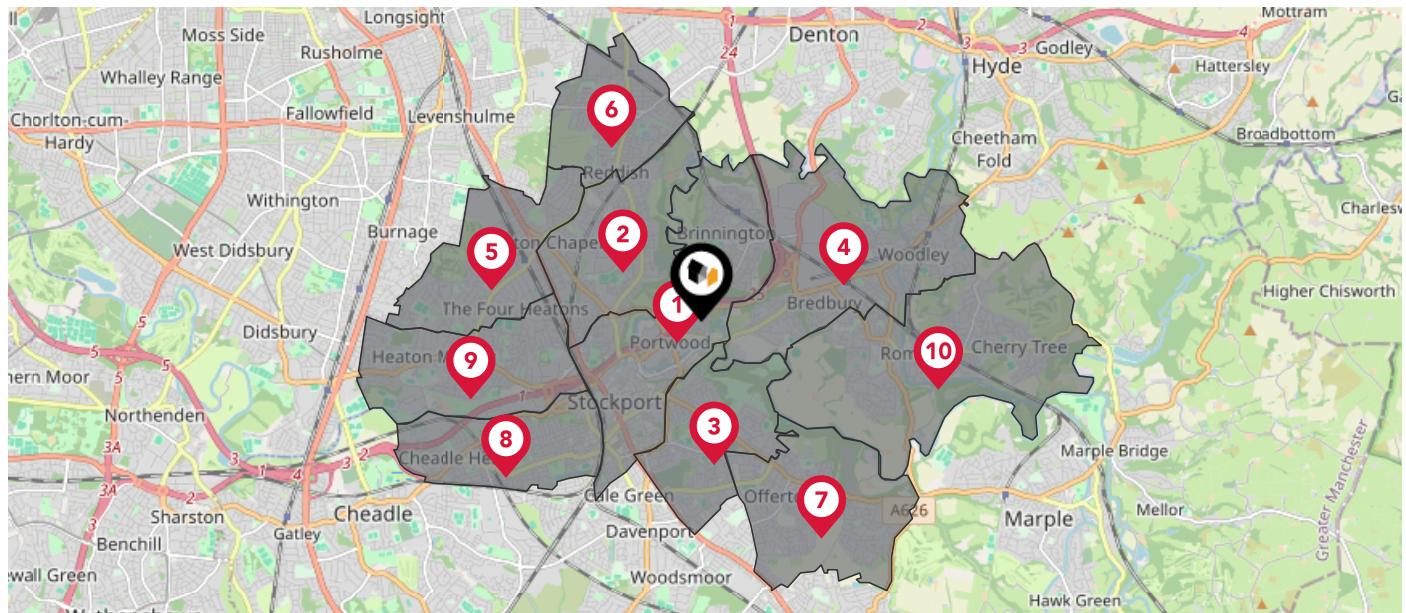

### Nearby Conservation Areas

- 1 Market and Underbanks
- 2 Dodge Hill, Stockport
- 3 St Peter's
- 4 Hillgate
- 5 Town Hall
- 6 Green Lane, Heaton Norris
- 7 Houldsworth
- 8 St George's, Heaviley
- 9 Heaton Moor
- 10 Cale Green

# Maps

## Council Wards

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

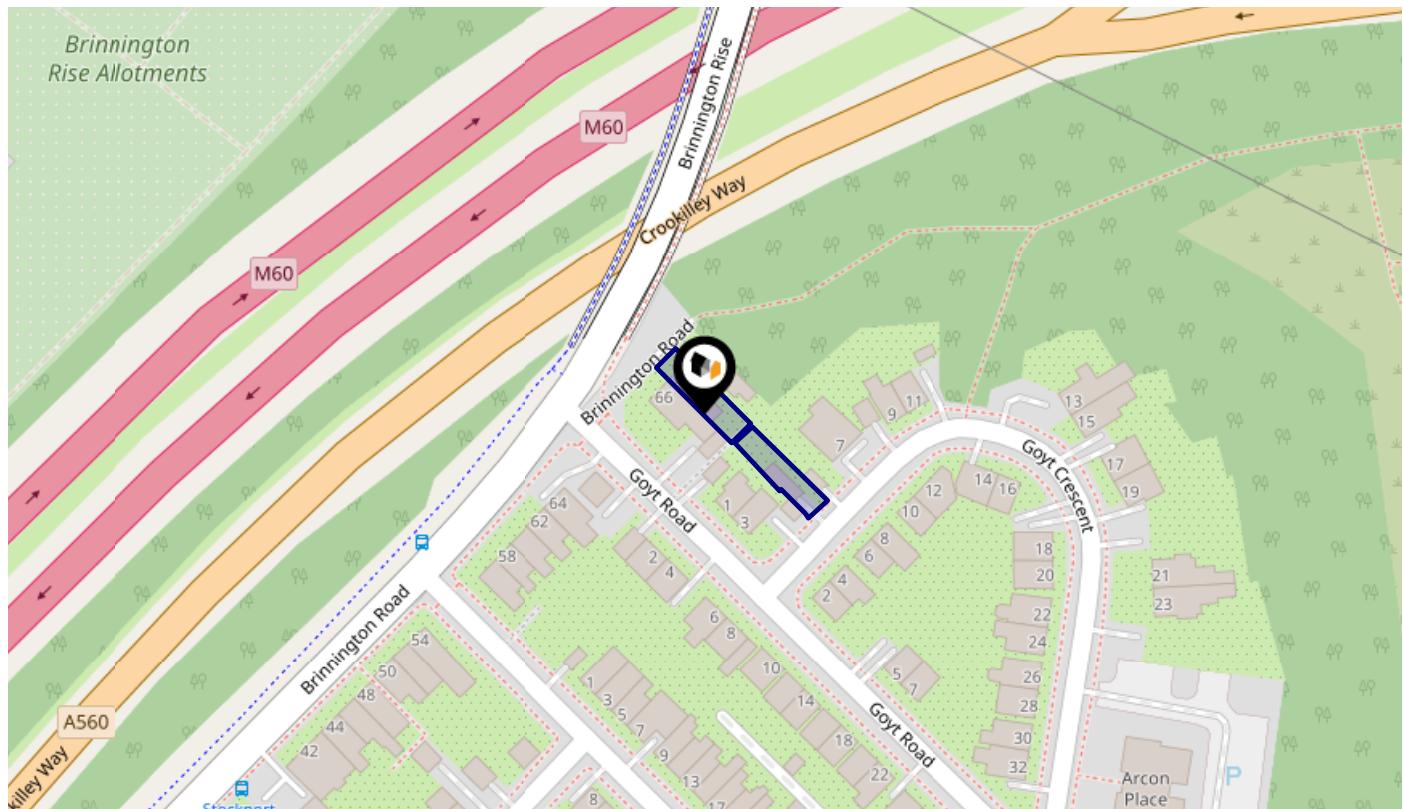

### Nearby Council Wards

- 1 Brinnington and Central Ward
- 2 Reddish South Ward
- 3 Manor Ward
- 4 Bredbury and Woodley Ward
- 5 Heaton North Ward
- 6 Reddish North Ward
- 7 Offerton Ward
- 8 Edgeley and Cheadle Heath Ward
- 9 Heaton South Ward
- 10 Bredbury Green and Romiley Ward

# Maps

## Rail Noise

This map displays the noise levels from nearby network rail and HS1 railway routes that affect this property...

### Rail Noise Data

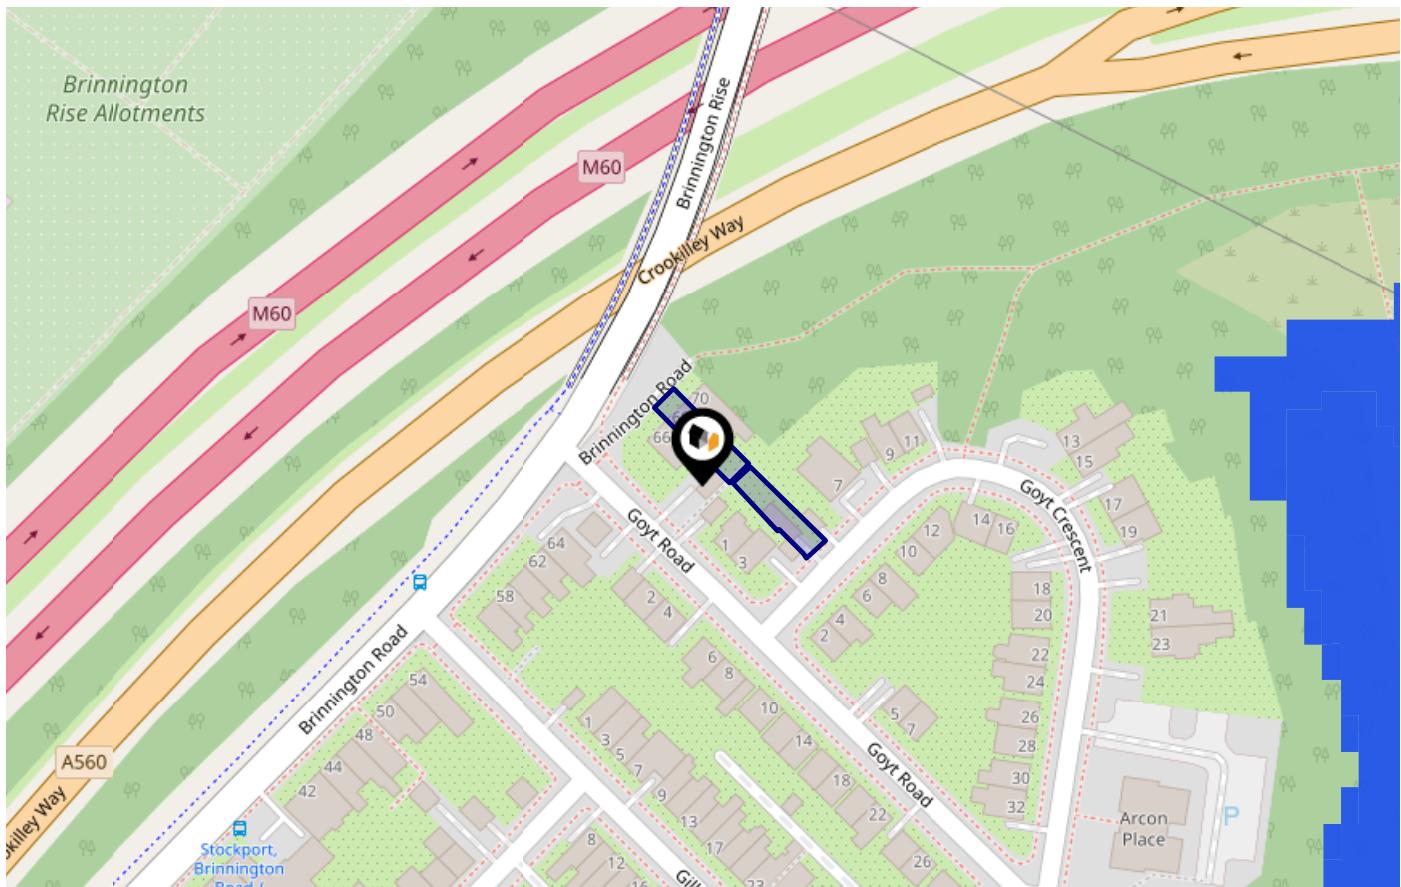

This data indicates the level of noise according to the strategic noise mapping of rail sources within areas with a population of at least 100,000 people (agglomerations) and along Network Rail and HS1 traffic routes.

The data indicates the annual average noise levels for the 16-hour period between 0700 - 2300.

Noise levels are modelled on a 10m grid at a receptor height of 4m above ground, polygons are then produced by merging neighbouring cells within the following noise classes:

5		75.0+ dB	<span style="background-color: red;">█</span>
4		70.0-74.9 dB	<span style="background-color: orange;">█</span>
3		65.0-69.9 dB	<span style="background-color: yellow;">█</span>
2		60.0-64.9 dB	<span style="background-color: green;">█</span>
1		55.0-59.9 dB	<span style="background-color: blue;">█</span>

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

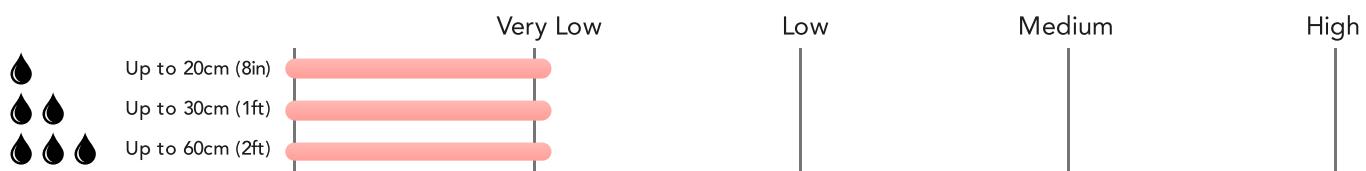

Risk Rating: Very low

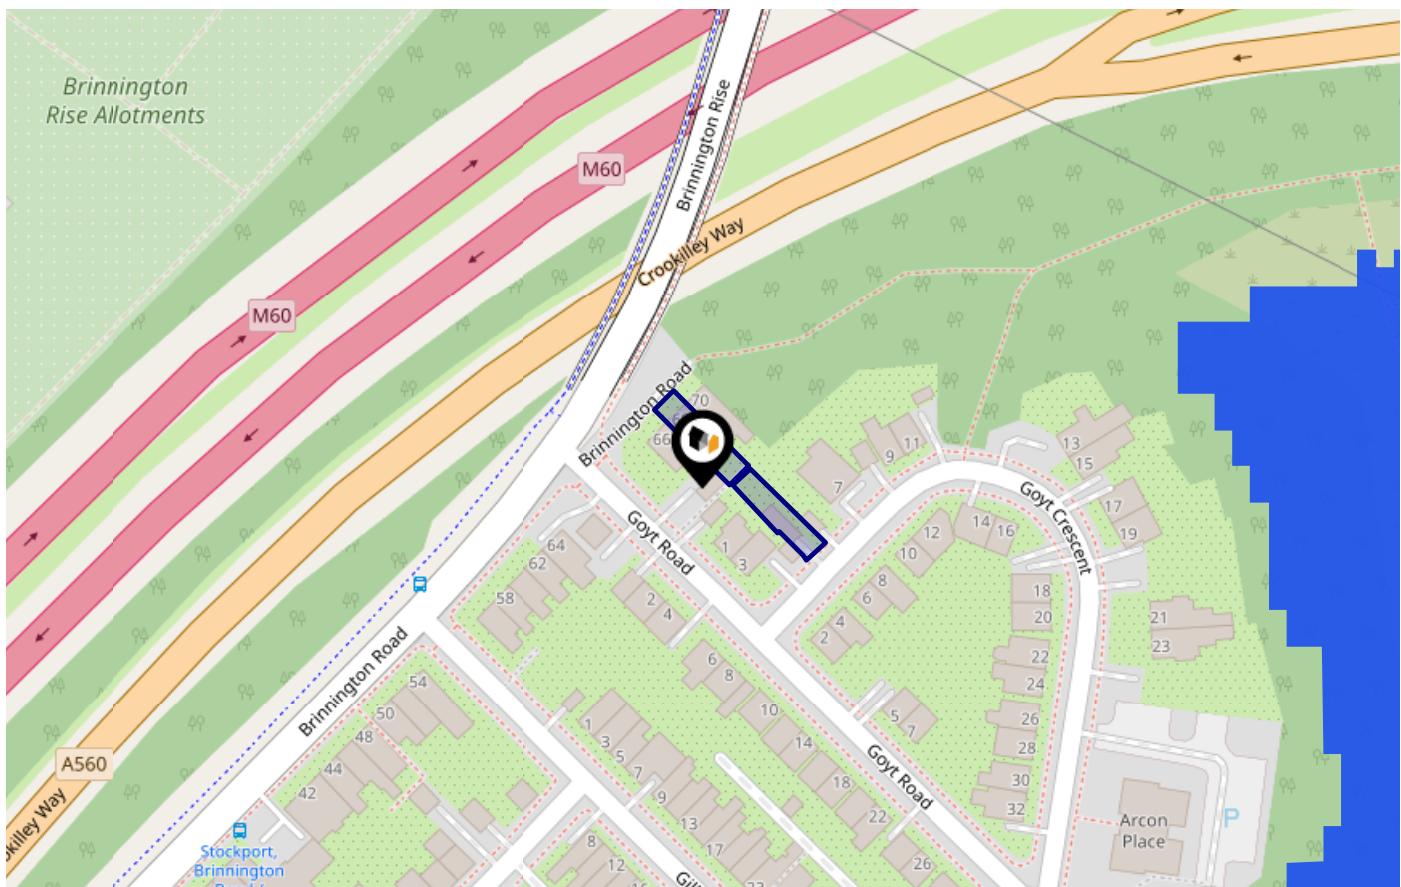

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- **Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- **Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- **Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

Chance of flooding to the following depths at this property:

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

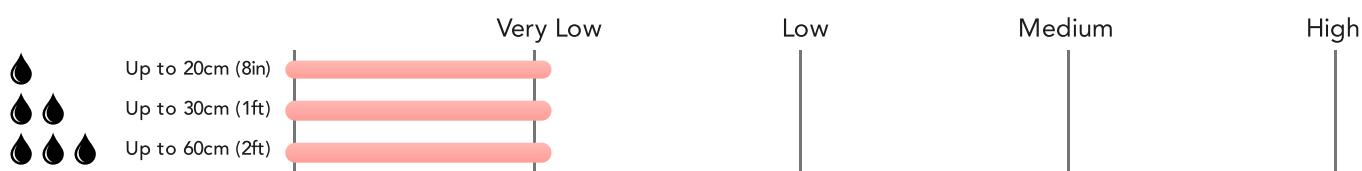

## Risk Rating: Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- **High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.

# Environment

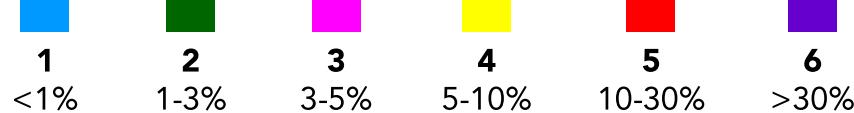

## Radon Gas

### What is Radon?

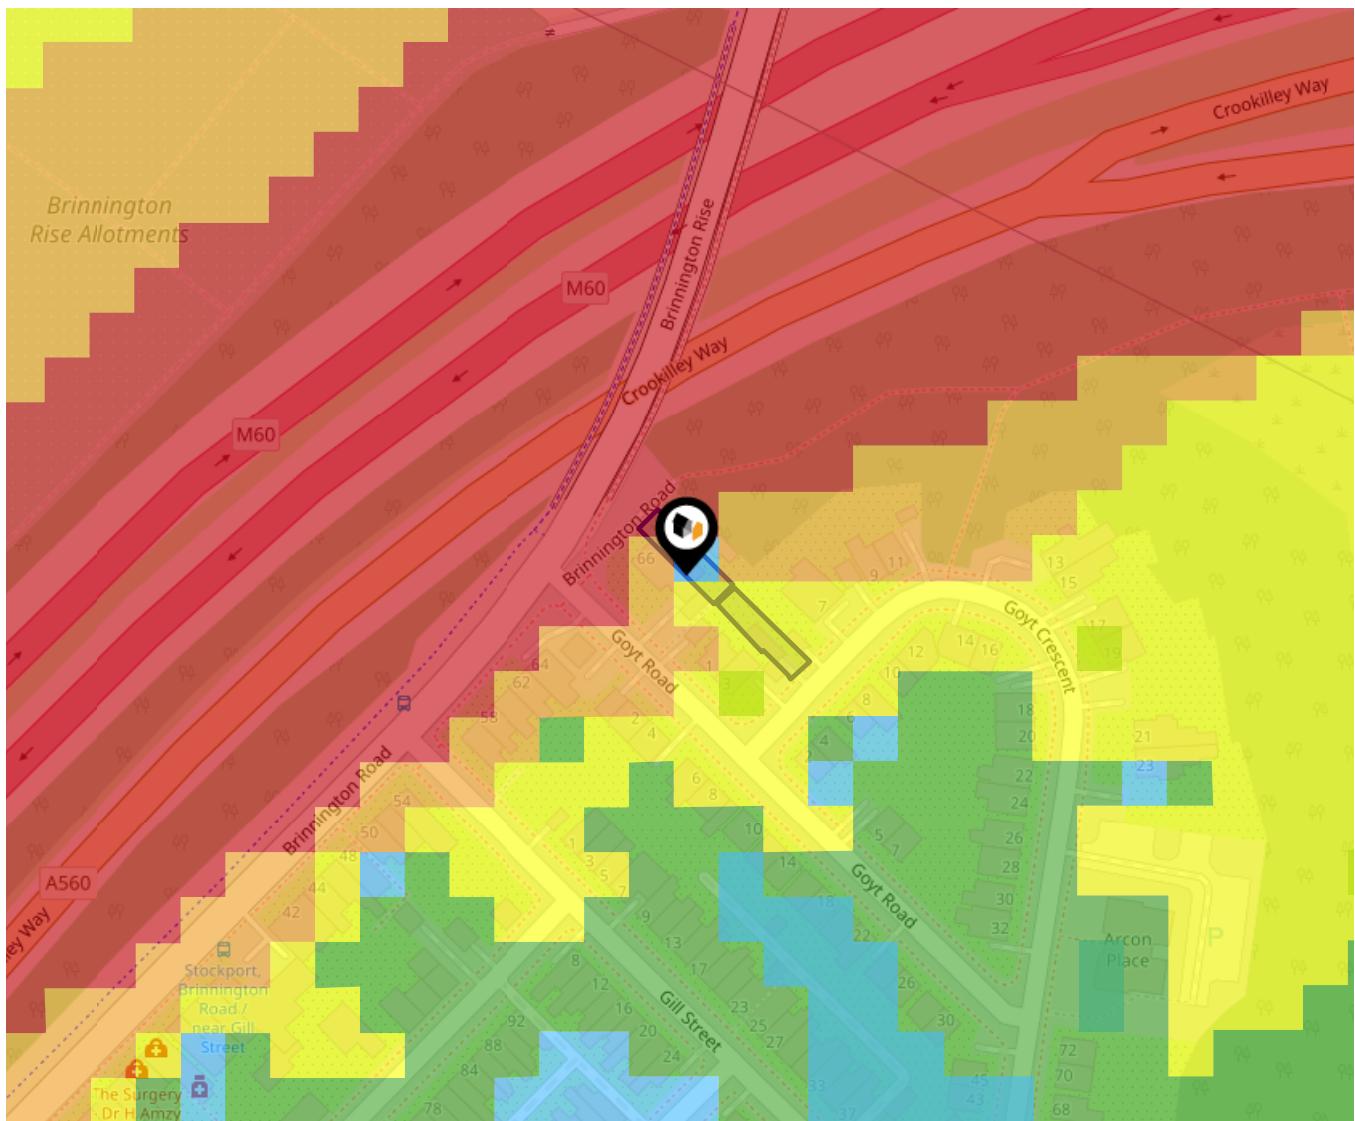

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m<sup>3</sup>).

If you are

### Testimonial 1

Everyone has been amazing in my journey from viewing to purchasing my property. They were always offering helpful suggestions and quick to reply to emails or calls. Thank you for your dedication and care.

### Testimonial 2

We just bought our first home through Lawler & Co and had a very positive experience. The team was incredibly helpful and informative. Lucy was always quick to respond to our questions, arrange viewings, and kept us updated at every stage. Overall, a great experience — highly recommend!

### Testimonial 3

Amazing , helpful and patient.. three words of many to describe the fantastic team at Lawler and co. We honestly couldn't have done it without there incredible staff, especially Sophie ☺. Thank you again for making this all possible!

### Testimonial 4

Lawlers have been absolutely professional and unendingly kind and helpful during the sale of my Mother's house. They deal with all queries promptly and efficiently. We could not recommend them highly enough.
